Q: How to show/hide specific webform element using jquery I have a webform where I would like to show/hide the "Comment" textarea based on the dropdown in the first dropdown list. When the first dropdown list changes, it takes the "Comment" field and adds it to the database. Here is what I am trying to accomplish using javascript. `$(document).ready(function() { $("#Select1").change(function() { if($(this).val() == 'Comment') { $('comment1').show(); } else { $('comment1').hide(); } }); });` My current html for the dropdown lists: D1-6 E1-6 D7-6 E7-6 E1-6 E7-6 My current html for the comment textarea: I have tried to attach jquery to the textarea but it does not work. Any help would be greatly appreciated. A: Your HTML looks incorrect. 1cdb36666d
