Yannick Denolle 08.05.2014.Reduced expression of CD44 and activation of p38 MAPK in rat thymocytes induced by in vivo exposure to sand pollutants. Studies have reported that environmental exposure to sand can cause adverse health effects. The purpose of the present study was to investigate the acute toxicity of sand in vivo to rat thymocytes. Rats were injected with sand for the purpose of detecting changes in thymocyte profiles that had toxicological significance, such as a shift in cell distribution and induction of apoptosis. Rats treated with sand showed significant increases in cell count and changes in thymocyte profiles, especially in T cells. Flow cytometry revealed that CD44 expression was highly expressed in T cells and that CD44(+) T cells were apoptotic. Our results showed that in vivo exposure to sand induced apoptosis of T cells through the activation of the stress-activated p38 MAPK signaling pathway. These findings suggest that the apoptosis observed in sand-treated T cells is, at least in part, a result of the activation of the stress-activated p38 MAPK pathway.Q: Regex to parse a string with multiple regular expressions I have strings in the form: NAME1 NAME2... where the format of NAME* will be. Guys. I think someone is performing a scan on my site right now. But nothing. Hmmm. Maybe that is all. It could be the problem. Maybe. The website is designed that only the admins can upload movies/images to it. What I really want to do is upload a post on google word and use it as another login to dshow. - I have done this before and the other blog was successfully retrieved. - Unfortunately, this last time is not working. I'm updating the information right now. I will also try to get the word document by calling Google Reader, saving it, then using WordPress to update my post. That is what I did the last time. I'll try it out now. If everything is okay, I will send you another PM. When I say I'm sending another PM, I'm requesting you to PM me in the real-time activity. I have big plans for the future. I want to discover and pursue things that will help me with my dreams. Guys. I know you will be there for me and I appreciate all you guys put into this. It means more to
